We're pleased to announce our two-tiered approach to reviewing your business to find the best markets for your clients as described above, and for YOU.

Tier 1: USLI Insurance Co. (Admitted Market; Best Rating A++)

- *We are now paying 15% commission to YOU for USLI new business as described above.
- *Available for USLI Target Classes within the above lines of business.
- *Competitive rates!

Tier 2: Our many other Surplus Lines and Admitted Markets that will consider the above lines of business, INCLUDING coverages that USLI will not provide and classes of business that USLI refrains from writing.

*An Employment Practices Liability market that will INCLUDE a sublimit for Fair Labor Standards Act coverage. Violation of this act has been the subject of lawsuits against clients that involves, for example, mis-classification of an employee such that they are mistakenly denied overtime pay. Many markets have declined to offer this coverage, but we have an outlet to provide such coverage through a sublimit. Some clients need this coverage and some don't – ask us if you're not sure.

*Many markets that will consider a wide variety of classes of business.

*Many different coverage approaches to satisfy your clients' needs.

*Knowledgeable staff ready to delve into your clients' needs with fast turnaround!
